PERSONAL PROJECTS

NETFLIX CLONE
- TECHNOLOGIES USED :- React, CSS.
- It's a fully working clone of famous movie app Netflix.
- It has a navbar , header(which change automatically when the page load).
- It has different rows which have different type of movies according to the genre.
- The rows have a slide bar . And the movies in the rows also changes as we load the page.

SPOTIFY CLONE
- TECHNOLOGIES USED : HTML, CSS, JS.
- It's a fully working clone of famous music player Spotify.
- It has a header where we have our playlist.
- It has a footer from where we can change the music , pause it and change it.

E-COMMERCE WEBSITE
- TECHNOLOGIES USED : HTML, CSS, JS.
- This is a dummy clothing brand website named Euphoria.
- It include everything a E-com website should have, from an aligned nav bar to informative footer everything's there for better user experience on website.

NEWS-APP
- TECHNOLOGIES USED : React, Bootstrap.
- It's an app that can fetch you daily news of any genre according to your preference.
- It has a nav bar where we have our genre of the news.
- If we click on any genre it will take us to that page where we can see the current news of that genre.
